

Model No. **SLV-Y30M** **NEW** “Inline Cutting Tool”

Cutting capacity Max.30mm dia. (Cu/Al/ACSR)

SPECIFICATIONS

Input	18V DC
Output	65.0 kN
Ram stroke	21.0 mm
Cylinder O.D.	34.0 mm

Size

(LxHxW) **412x109x76**

WEIGHT

3.4 kg without battery

ACCESSORIES

Battery

Makita BL1830B

Charger

Makita Charger : DC18RC / DC18RD /
DC18RE / DC18SD / DC18SE /
DC18SF

FEATURES

- A scissors type cutter used to cut ACSR cables up to 556MCM, as well as copper cables to 750MCM and aluminium cables up to 30mm outer diameter.
- All cuts are clean with a minimal amount of cable distortion, which allows for easy connector installation on cables.
- The head can be rotated 180 degrees for greater manoeuvrability in working quarters.
- The keeper plate prevents jaws from spreading apart when cutting ACSR.
